

YOUR MISSION. OUR ITINERARY.

PathWise Consulting partners with nonprofits and academic institutions to create travel and educational experiences that translate institutional intention into authentic engagement. Working alongside premier providers such as National Geographic-Lindblad Expeditions, we craft purposeful journeys that yield powerful connections to your mission, values and priorities. From concept to follow-up, we manage logistics, communications, high-touch engagement, and execution, so your team can focus on building relationships – not itineraries.

**Call or email us today to plan
unforgettable programming
for your organization.**
